## New England Biolabs Certificate of Analysis

| Product Name:          | NEBNext® rRNA Depletion Kit (Bacteria) |
|------------------------|--|
| Catalog Number:        | E7850L                                 |
| Packaging Lot Number:  | 10118629                               |
| Expiration Date:       | 11/2022                                |
| Storage Temperature:   | -20°C                                  |
| Specification Version: | PS-E7850S/L/X v1.0                     |

| NEBNext® rRNA Depletion Kit (Bacteria) Component List |  |            |                      |  |
|---|--|------------|----------------------|--|
| NEB Part Number                                       | Component Description                      | Lot Number | Individual QC Result |  |
| E7851-3VIAL   | NEBNext® Bacterial rRNA Depletion Solution | 10089787   | Pass                 |  |
| E7753-3VIAL   | NEBNext® DNase I                           | 10089785   | Pass                 |  |
| E7752-3VIAL   | NEBNext® Thermostable RNase H              | 10089786   | Pass                 |  |
| E6317-3VIAL   | Nuclease-free Water                        | 10089790   | Pass                 |  |
| E6315-3VIAL   | DNase I Reaction Buffer                    | 10089789   | Pass                 |  |
| E6314-3VIAL   | NEBNext® Probe Hybridization Buffer        | 10089791   | Pass                 |  |
| E6312-3VIAL   | RNase H Reaction Buffer                    | 10089788   | Pass                 |  |

| Assay Name/Specification   | Lot # 10118629 |
|--|----------------|
| Functional Testing (rRNA Depletion)<br>NEBNext® rRNA Depletion Kit (Bacteria) is functionally validated using E. coli RNA<br>and RNA from a mock bacterial community. After treatment with the kit, a<br>high-throughput sequencing library is made and sequenced. Reads from this library<br>are classified as being derived from ribosomal RNA based on sequence homology. This<br>method produces libraries with <10% rRNA. | Pass           |
| * Individual Product Component Note<br>Standard Quality Control Tests are performed for each component included in NEBNext®<br>rRNA Depletion Kit (Bacteria) and meet the designated specifications.   | Pass           |

This product has been tested and shown to be in compliance with all specifications.
