## New England Biolabs Certificate of Analysis

| Product Name:          | a-Lytic Protease                    |
|------------------------|-------------------------------------|
| Catalog Number:        | P8113S                              |
| Concentration:         | 0.4 mg/ml                           |
| Packaging Lot Number:  | 10109978                            |
| Expiration Date:       | 08/2023                             |
| Storage Temperature:   | -20°C                               |
| Storage Conditions:    | 10 mM Sodium Acetate (pH 5.0 @25°C) |
| Specification Version: | PS-P8113S/L v1.0                    |

| a-Lytic Protease Component List |                       |            |                      |  |
|---------------------------------|-----------------------|------------|----------------------|--|
| NEB Part Number                 | Component Description | Lot Number | Individual QC Result |  |
| P8113SVIAL                      | a-Lytic Protease      | 10117455   | Pass                 |  |

| Assay Name/Specification  | Lot # 10109978 |
|---|----------------|
| Specific Activity (Spectrophotometric)  | Pass           |
| The specific activity of $\alpha$ -Lytic Protease is $\geq 0.1$ mmol min-1 mg-1.                  |                |
| Functional Testing (Myoglobin Digestion)  | Pass           |
| A 20 µl reaction in 50 mM Ammonium Bicarbonate (pH 8 @ 25°C) containing 2 µg of                   |                |
| Myoglobin protein and 0.1 $\mu$ g of $\alpha$ -Lytic Protease incubated for 16 hours at 37°C      |                |
| results in the expected digestion products as determined by LC-MS analysis.                       |                |
| Functional Testing (Calcitonin Peptide Digestion)   | Pass           |
| A 20 µl reaction in 50 mM Ammonium Bicarbonate (pH 8 @ 25°C) containing 2 µg of                   |                |
| human calcitonin peptide and 0.1 $\mu$ g of $\alpha$ -Lytic Protease incubated for 1 hour at 37°C |                |
| results in the expected digestion products as determined by LC-MS analysis.                       |                |

This product has been tested and shown to be in compliance with all specifications.
