

New England Biolabs Certificate of Analysis

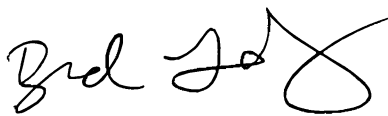

Product Name: NEBExpress[®] E. coli Lysis Reagent
 Catalog Number: P8116S
 Packaging Lot Number: 10187120
 Expiration Date: 08/2024
 Storage Temperature: 25°C
 Specification Version: PS-P8116S/L v1.0

NEBExpress [®] E. coli Lysis Reagent Component List			
NEB Part Number	Component Description	Lot Number	Individual QC Result
P8116SVIAL	NEBExpress [®] E. coli Lysis Reagent	10160857	Pass

Assay Name/Specification	Lot # 10187120
Functional Testing (Lysis Reagent) (vGFP, Fluorescence) A 40 µl reaction in the presence of E. coli cells expressing vGFP and NEBExpress [®] E. coli Lysis Reagent incubated for 20 minutes at 25°C results in an increase in fluorescence ≥ 7,500 RFU in the soluble fraction compared to untreated cells.	Pass

This product has been tested and shown to be in compliance with all specifications.
