Assay Name/Specification	Lot # 10213158
<p>* Individual Product Component Note</p> <p>Standard Quality Control Tests are performed for each component included in NEBNext® Single Cell/Low Input RNA Library Prep Kit for Illumina® and meet the designated specifications.</p>	Pass
Functional Testing (Library Construction, Single Cell RNA)	Pass

Assay Name/Specification	Lot # 10213158
<p>Each set of reagents is functionally validated and compared to a previous lot through construction of libraries made from single cells and commercially available RNA using the kit's minimum and maximum input requirements. Libraries made from previous and current lots are sequenced together on the same Illumina flow cell and compared across various metrics including library yield, individual transcript abundance, 5'-3' transcript coverage, percent ribosomal RNA, and fraction of reads mapping to a reference.</p>	

This product has been tested and shown to be in compliance with all specifications.
